The image features a technical drawing of a circular component, likely a filter or a specialized part, with various dimensions and features. The drawing includes a top view and a side view labeled 'SECT ON B-B'. The top view shows a circular shape with a central hole of diameter 63.2, an outer diameter of 120, and a radius of 74.5. There are several smaller holes and features around the perimeter. The side view shows a cylindrical shape with a diameter of 72.2 and a height of 72.2. A section line 'A-A' is shown on the side view. The drawing is overlaid on a large orange rectangle containing the text 'CONTENTS' and a list of sections. The text is in white and orange colors. The background is white with a light gray grid.

ABOUT CCPL

CELEBRATION COLLECTIONS (P) LTD. has grown to be one of the leading manufacturers for precision engineering components. We have more than 15 years of **experience** in precision component manufacturing industry.

We have three workshops within vicinity of three kilometers with approx 100,000 Sq. feet, which enable us to take massive production jobs. We have well experienced & qualified engineers who have worked with MNC's along with very well trained technicians and workers who are capable of doing any type of complex precision jobs for components manufacturing.

Over & above, we have tied up with a host of Allied Industries which allow us timely supply backed with after sales services. These entire factors enable us to **manufacture precision components from high quality materials within stipulated time frame.**

Machining Capabilities

CCPL offers Turning & vertical Milling services. We have total of 28 Turning centers & 7 vertical milling centers, providing multiple machining possibilities under same roof. Our engineers select perfect equipment for an application, based on Tolerance, Material & Volume to ensure our clients with premium quality at a most reasonable price.

Selection of Materials

- ALUMINIUM
 - STEEL
 - STAINLESS STEEL
 - BRASS
 - DERLIN
 - NYLON
 - ALUMINIUM FORGINGS
 - CASTINGS
 - VHMW PE
 - CAST IRON

LIST OF MACHINES

At CCPL we utilize some of most reputed machine brands for both Milling & Turning, which are capable of holding tight geometric tolerance & high volume at same time.

We also provide customize solutions for all kinds of Plastic Components along with Tailor Made Die-mould that fits to precision for any given component.

1. Lathe / Turning
2. CNC Vertical Milling
3. Injection Moulding

MODEL	TYPE	SPECIFICATIONS
SMARTURN	LATHE / TURNING	200 X 262, 4500 RPM
BROTHER S1000 X1	CNC VERTICAL MILLING	1000 X 500 X 500, 10,000 RPM
BROTHER R450 X1	CNC VERTICAL MILLING	400 X 300 X 300, 16,000 RPM
MAKINO SLIM 3N VERTICAL 3 AXIS	CNC VERTICAL MILLING	500 X 400 X 400, 16,000 RPM
SHIBAURA MACHINE TS 80	INJECTION MOULDING	80 - 200 TONNE

Crafting Precision With Innovative Manufacturing

CCPL has the required Knowledge, Skills & Technology to facilitate, in house quality components manufacturing & to deliver the projects anywhere in the world within the stipulated time frame.

Our goal is to **achieve highest customer satisfaction** throughout our service process from design, development to delivery.

We always ensure to follow given instruction to achieve highest precision in **Cost Effective Manner** to provide best customer experience at all times.
